From our Founder

It's my pleasure to extend a heartfelt welcome as you embark on this thrilling adventure with us. For me, Southeast Asia isn't just a destination; it's a mosaic of cultures, flavors, and experiences waiting to be discovered. My journey began with a visit to Malaysia in 2010, where I was amazed by the rich tapestry of traditions, the warmth of its people, and the mouthwatering street food. This love affair with Malaysia and Singapore only deepened as I started exploring the region working as a Tour Director in Southeast Asia.

At Malaya Travel, we take great pride in curating experiences that capture the essence of this remarkable region. In each itinerary, we endeavor to include something exciting or unique, whether it's the art of Tingkat (tiffin box) painting in Singapore, exploring the remote jungles of Sarawak, or pampering you with a Malay massage at Banjaran Hotsprings. And let's not forget tasting honey from stingless bees in the Royal Belum Rainforest or experiencing a bird-singing club in Singapore. Whether you're navigating the vibrant markets of Chinatown in Singapore, marveling at the iconic Petronas Towers, or indulging in a culinary feast at Lao Pa Sat hawker center, our team is dedicated to ensuring that your journey is nothing short of extraordinary.

So, whether you're a seasoned traveler or embarking on your first adventure in Southeast Asia, I invite you to join us as we uncover the hidden treasures of Malaysia and Singapore. Let's create memories that will last a lifetime!

Witness the spectacular bat exodus at dusk before returning to the Marriott Mulu Resort & Spa for a relaxing evening and dinner.

After an early breakfast, head to Kuching Airport for a flight to Mulu, where you'll transfer to the hotel situated near the Gunung Mulu National Park. This UNESCO World Heritage site is renowned for its remarkable biodiversity, pristine old-growth tropical forests, and impressive karst features. The park, listed as a World Heritage site, boasts mesmerizing limestone formations, including colossal caves, extensive cave networks, rock pinnacles, cliffs, and gorges. Its cave system is the largest known in the world, sculpted over time by surface water, resulting in massive passages through the bedrock.

Your adventure will take you to the jaw-dropping Deer Cave, one of the world's largest cave passages, spanning 2.2 kilometers in length and reaching a height of 220 meters at its zenith. This limestone mountain was once traversed by a powerful underground river, which sculpted the cave into its current magnificent form, with most sections reaching heights of up to 148 meters. You'll even spot a remarkable rock formation within the cave that resembles the profile of President Lincoln. The sheer enormity of the cave is a sight to behold and must be seen to be fully appreciated.

After your exploration of Deer Cave, your guide will lead you to Lang's Cave. While not as vast as Deer's Cave, Lang's Cave is renowned for its spectacular stalactites and stalagmites, making it a must-see within Mulu National Park. Following your visit to both caves, you'll make your way to the bat observatory to witness the mesmerizing bat exodus, usually occurring around 5:30 pm. Within the caves, a total of 12 bat species have been recorded, including a staggering 2.5 to 3.5 million wrinkle-lipped bats. As the sun approaches the horizon, bat hawks assemble on the cliff face, anticipating the mass bat exodus.

After this captivating spectacle, you'll return to Park Headquarters via the 3-kilometer boardwalk trail, with the opportunity to spot nocturnal wildlife along the way. Later, you'll return to your hotel for a delightful dinner and a restful night's sleep.
